Re: CCTV

Date: February 27, 2007

This is just a quick note to tell you how happy Clearview is with not only your CCTV systems but with your Company as well.

VMS has been great to work with. You guys are responsive and reliable. I haven't received any complaints from my Theatre Managers and in fact many have mentioned how pleased they are with your installation and service.

The Cameras have yielded immediate results. Within the very first month, there were three situations where the cameras identified and assisted Police in making arrests. The first was an individual who used a stolen credit card to purchase Theatre tickets, the second, an individual called for car service from a lobby pay phone and then robbed the driver and the third, an individual was calling in bomb threats from the another lobby pay phone.

In addition, many of my Managers have told me that since the cameras have been installed their cash and inventory shortages have decreased.

Jonathan, again, thank you for your great system and service. I look forward to continuing doing business with VMS and hopefully, not before long, all our Theatres will be equipped with CCTV.

CCTV gives new meaning to the phrase, "HERE'S LOOKING AT YOU KID".
